

It's a good idea to know the science!
Give kids what they actually
NEED to SUCCEED!

Victoria Carlton's Programs are
Science of reading aligned and evidence based.

FULL DAY JOLLY LEARNING With Victoria Carlton

JOLLY LEARNING is an intensive professional development day that combines JOLLY PHONICS and JOLLY GRAMMAR 1,2,3

You will learn:

Jolly Phonics: A SCIENCE OF READING aligned and evidence-based, synthetic phonics and multi-sensory literacy program that opens the door to literacy for ALL children. Jolly Phonics teaches all the main sounds using a unique set of actions, making the learning effortless and fun! This program is taught all over the world. It is engaging and delivers excellent results. The Jolly Phonics and Jolly Grammar programs empower ALL students to read, spell and write.

Jolly Grammar is a GRAMMAR WITHOUT GROANS, a multisensory literacy program that teaches:

- ✓ **Grammar**
- ✓ **Punctuation**
- ✓ **Phonics**
- ✓ **Spelling**

The program applies to children from 7-12 years. The children learn a unique combination of movements and colours to help them understand the essential elements of grammar. This means they learn the “nuts and bolts” of writing easily and naturally. They learn how to incorporate this knowledge into their oral language and writing skills.

Learn why JOLLY LEARNING is so effective and HOW to teach it.

- Which sounds should be introduced, what are the actions, how should they be taught, and what is a suggested order of skills?
- Structured multisensory strategies and games to teach phonics, spelling and grammar skills
- Which grammatical structures to introduce and a suggested order, signs, colours and games

Investment: \$330 AUD

JOLLY PHONICS and JOLLY GRAMMAR intensive Professional Development day: Friday 24 January 8 am to 3 pm (Perth/Singapore time GMT +8)

We believe that all kids are smart!
